

Freedom to Screen Program

The Freedom to Screen Program at Northwest Hospital provides community outreach, breast cancer education, and screening resources for lower-income, uninsured and under-insured women in Baltimore County and City. The goal of the program is to provide women with the resources they need to increase breast cancer awareness and prevention.

The program offers assistance in accessing health care for the following;

- Breast cancer screenings
- Clinical breast exams
- Mammograms
- Follow-up diagnostic procedures

Please call the Breast Care Center at Northwest Hospital at **410-521-5913** for more information about the **Freedom to Screen Program** or contact the Lisa Ann Hamm, Program Coordinator, at lhamm@lifebridgehealth.org.
