MedChi
The Maryland State Medical Society

Center for a Healthy Maryland
The Maryland State Medical Society Foundation

Our Objective

The symposium's purpose is to increase awareness of the Physician Health Program Model and its efficacy helping physicians and allied health care providers practice safely.

Your Sponsorship

Your support provides a platform to show your commitment to physician wellbeing and healthcare quality.

By supporting educational initiatives, you contribute to the dissemination of knowledge and best practices in physician health, which can lead to improved healthcare outcomes

Your Impact

- $1,000 provides two months of toxicology testing for a participant on financial assistance,
- $2,500 helps our clinicians to stay up to date on accreditations,
- $5,000 offsets conference fees to allow our team to continue as leaders in the PHP space.

Featuring

About the Center

The Center for a Healthy Maryland, The Maryland State Medical Society's Foundation, was established in 1976 as a 501(c)(3) corporation to support the charitable, educational and scientific purposes and functions of MedChi. These include education, quality improvement, health promotion, community outreach, preservation of MedChi history, and public health.

The Center's mission is to educate and advance the practice of medicine, enhance the quality of medical care, promote the health of the citizens of the State of Maryland, and explore and preserve the history of Maryland medicine and MedChi's archives.
Learn more about the Center at
www.healthymaryland.org.

About MPHP

The mission of the Maryland Physician Health Program is to provide compassionate high-quality assistance to physicians and other healthcare professionals dealing with potentially impairing conditions in a private, non-disciplinary setting while protecting both the confidentiality of the participant and the safety of the public.

The Maryland Physician Health Program (MPHP) assists physicians and other allied health care professionals in a confidential, private setting to address issues that may impact their ability to practice medicine. MPHP assesses and refers participants to appropriate treatment, helps the participant develop a clinical plan, provides case management to facilitate progress, and provides advocacy on behalf of the client when needed.
